## Why is Hashtag Escape the Ultimate Team Building Experience?

*Besides being great fun and accessible to people of all ages,  
Hashtag Escape's adventures offer very real benefits  
when used as corporate team building events.  
You'll probably be having too much fun to notice,  
but the time pressure and unknown challenges of our  
escape rooms compel individuals to work together as a team to escape in time.*

*Our challenges are specifically designed to be impossible for a  
single person to complete and multiple challenges can be  
attempted simultaneously - the players quickly identify  
the strengths and weaknesses of their fellow escapees to  
best conquer the numerous and diverse challenges presented in the environment.*

*The nature of the challenges also ensure that diversity in the team is a huge benefit.  
It is not uncommon for a player who started out as timid and unsure to solve a puzzle that  
stumped the rest of the team - the self confidence boost this provides the player is  
immeasurable and lasts for long after the hour is up.*
